

Create Node-RED Service

Date	10 November 2022
Team ID	PNT2022TMID12986
Project Name	Project - IoT based safety gadget for ChildSafety Monitoring and Notification
TEAM LEADER	YAMUNA PRIYADHARSHINI K
TEAM MEMBERS	CHOPRA S V KOVARTHINI S VARSHINI S

Aim: To create a web application create a Node-RED service.

Steps followed:

- Navigated to the App creation page

- Entered project details and clicked on create

The screenshot shows the IBM Cloud console interface. At the top, there is a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Angleena Reji's Account). Below the navigation bar, the main content area is divided into sections. The first section is a dropdown menu labeled 'Default'. Below this is a 'Tags' section with a text input field containing 'Examples: env:dev, version=1'. The 'Platform' section shows 'Node.js' selected. The 'Service details' section includes a 'Cloudant' heading, a 'Region' dropdown set to 'London', a 'Resource group' dropdown set to 'Default', and a 'Pricing plan' dropdown set to 'Life'. At the bottom of the form, there are 'Cancel' and 'Create' buttons. A vertical 'ASK A QUESTION' button is located on the right side of the form.

- Clicking on the “Deploy your App” Button

- Setting up the environment and deploying the app
- Successfully deployed the app
- Dragged and dropped components into the editor

- Editing some values of the properties
- Successfully deployed the app
